Helping Minnesotans know, love & stand up for their neighbors
MISSION & VISION

#unitecloud provides education and actionable steps to resolve tension and restore dignity to all people in Central Minnesota.

#unitecloud seeks to foster an empathetic community that chooses to stand up for one another regardless of race, religion, gender, sexual orientation, abilities, or socio-economic background. We believe that our commitment to this vision will lead to a sense of greater safety and hope and a decrease in fear and suspicion of those who are different from us.

2019 IMPACT

SPEAKING & TRAINING PROGRAMS

#UNITECLOUD travels throughout Minnesota and neighboring states, leading communities and organizations through cultural tensions that result from changing demographics. Utilizing our experience from the St. Cloud area, #UNITECLOUD speakers travel to your location and facilitate an honest and useful discussion in a safe and familiar environment. We are there to talk with you, not at you.

12 Join Your Neighbor Trainings
4 Love Your Neighbor Gatherings
4 Know Your Neighbor Trainings

1,400+ Neighbors served by our three types of programs

UC TO DC

Because of your local support, as well as national support from our friends at Welcoming America, in October 2019 we met with Minnesota legislators on Capitol Hill, including St. Cloud area Congressman Tom Emmer. We discussed the importance of community relationships, positive narratives about refugees, and working together to ensure that all are welcome in our communities.

COMMUNITY ENGAGEMENT

For nearly half of the last decade, we have been out in the community, encouraging people to know, love, and stand up for their neighbors. We are here for you and we are able to do this work because of you. We are strongest when we decrease fear and increase hope by working together.

LOVE YOUR NEIGHBOR

Neighborhoods all around Minnesota are proudly speaking out against fear, intolerance and hate with these signs that send a clear message. These signs transcend the politics of the day to spread the timeless and universal message of the human spirit and it’s capacity to reach across fences and beyond borders.
#UNITECLOUD is proud to bring Green Card Voices to Central Minnesota, featuring 18 first generation immigrant and refugee stories from 12 different countries of origin. The stories that make up this exhibit are Central Minnesota stories, told by community members who live, work, and serve here. The exhibit features individual 8 foot tall, full-color banners displaying highlights of each incredible and unique story. Each banner includes a portrait, 200-word bio, a quote and a QR code so viewers can scan them with a smart phone or tablet and watch the first-person video story.

**CENTRAL MINNESOTA GREEN CARD VOICES**

**SUMMER**
- Exhibit traveled throughout Great River Regional Library locations
- Showcased at Twin Cities World Refugee Day Celebration
